

# Schedule & Earnings

Removes stressful ambiguity around paychecks by showing future earnings at a glance.

[www.even.com](http://www.even.com)

Financially stressed employees are nearly five times more likely to be distracted by their finances at work.<sup>1</sup>

## A clear picture of how much money is coming in

Often times, employees don't know how much their paycheck will be until they get paid. This makes it nearly impossible to know if there will be enough money to cover upcoming bills. With Schedule & Earnings, employees can see how much they've earned so far, and what their next paycheck will amount to.

## Quick access to shift and pay information

Schedule & Earnings shows a detailed account of shifts—both past, and upcoming—for the current pay period. Employees can see the number of hours they worked, and the estimated net pay for each shift. Plus, it's a fast way for employees to check when their next shifts are, in the same place they're already managing work and compensation.

“I won’t know until payday how much I’m going to be getting paid. It stresses me out if I don’t know if I’m going to be able to pay all my bills that week.”

Barista, Starbucks  
St. Cloud, MN

The screenshot shows the Even app interface. At the top, there are navigation icons and a date selector for the 15th of January. Below this, the app displays 'Paycheck in 8 days' and a large amount of '\$123.45'. It also shows 'Earned so far' and 'Saving 1%'. A green button offers 'Instapay up to \$61'. Below this, it shows '9.5 HOURS WORKED' and '13 HOURS REMAINING'. A table lists earnings by date: Mon 1/4 (9.5 hours, OT, +\$123.45), Today (2pm - 7pm, +\$63.00), and Thu 1/7 (3pm - 10pm, +\$84.00). At the bottom, it shows 'PROJECTED 21.5 hours' and '\$270.45'.

Swipe between paydays to see paycheck history

See how many days until payday, and what the paycheck will amount to

See how much of the next paycheck is allocated to Automatic Saving

Access up to 50% of current earnings before payday with Instapay

See hours worked so far, plus remaining hours scheduled to work within the pay period.

Get a day-by-day breakdown on how much was earned on each workday (including overtime)
